

Bull Sales List

At Cadfor Murray Greys [we guarantee the quality](#) of all the animals that we sell. We aim to provide our clients with bulls that will improve their herds and profitability. Our bulls have figures in the top 10% of the Murray Grey breed in at least one of the following areas: calving ease, growth, carcase attributes or financial indices.

The animals currently for sale are listed below. The EBV graphs show the Breedplan data for each animal. Lines to the right of the graph indicate that the animal is superior for that trait. Lines to the left are less desirable.

We believe in providing all relevant details of the bulls including structure scores, scans and scrotal measurements.

If you click on the name of the animal it will open a new page with the animal's full details on the Murray Grey website.

The yearling bulls shown had a pretty difficult wet spring in 2016 and weaned about 50kg lighter than normal. They are picking up now and should grow well.

If you would like to inspect the bulls or require further information please contact us by phone (0416 284149) or [email](#). We hope you enjoy looking at our bulls as much as we do in breeding them.

CADFOR MAGNETIC M244 (PB)

Sire: WALLAWONG VANILLA (PB) Dam: CADFOR ESTER E173

Colour Silver Weight @ 15 months 467 kg Price \$4,000 (Ex GST)

Cadfor Magnetic M244 is an interesting bull. Magnetic is a good name because I am drawn to him! He did well to weaning but found weaning a bit tough. He was quite shy about getting to the feed trough among the other bulls. He is easily the quietest bull in the batch and does appreciate a scratch on the tail or a rub on the head. His figures demonstrate superior EMA and above average growth.

Name:	Cadfor Magnetic M244	Ident:	HR1 M244
DOB:	3/3/2016	Birth weight:	38
Weaning date:	18/10/16	Weaning weight:	262
Frame score:	5.0	Daily gain to weaning:	1.16 kg / day

CADFOR MASSIF M247 (PB)

Sire: WALLAWONG VANILLA (PB) Dam: CADFOR PHILIPPA C124

Colour Silver Weight @ 15 months 516 kg Price \$4,000 (Ex GST)

Cadfor Massif M247 is an attractive thickset young bull. His mother is a well-muscled cow by Lindsay Starbright. His EMA is in the top 10% and with average birth weight and above average growth; he will do a good job in a commercial herd producing progeny that will suit a variety of markets.

CADFOR MULTIPLIER M248 (BF)

Sire: BANKSIA RIDGE HARRY Dam: CADFOR DAWN E167

Colour **Black** Weight @ 15 months **457 kg** Price **\$4,000 (Ex GST)**

Cadfor Multiplier M248 is a low birth weight, high calving ease bull, ideal for putting over heifers. He has excellent carcass traits – better than top 10% of breed for muscle, marbling and fat cover. He is not offering high growth rates in his progeny but there is a very good chance they will all survive the birth process. Dead calves have a poor growth rate. With a smaller scrotal measurement we would not recommend that he be given a large mating load.

CADFOR METEORIC M249 (PB)

Sire: WALLAWONG VANILLA (PB) Dam: CADFOR JESSICA D156

Colour Silver Weight @ 15 months 497 kg Price \$4,000 (Ex GST)

Cadfor Meteoric M249 is an attractive bull out of one of our reliable old matrons. He offers calving ease and excellent easily finished progeny. His EBVs show superior muscling, marbling and fat cover – exactly what is needed to get good MSA scores. Like all bulls in this batch he is very quiet and easily handled.

CADFOR MADEIRA M251 (PB)

Sire: CADFOR JUSTICE J181 (PB) Dam: CADFOR PHILIPPA K272 (PB)

Colour Silver Weight @ 10 months 339 kg Price \$3,500 (Ex GST)

Cadfor Madeira M251 was sired by a nice bull we used over heifers and then sold to a stud breeder in the Hunter. Being an average birthweight and out of a heifer we can recommend him to be used over heifers. Superior eye muscle and carcass yield. Very quiet.

CADFOR MIDNIGHT M252 (BF)

Sire: CADFOR JUSTICE J181 (PB) Dam: CADFOR JESSICA K273 (PB)

Colour: Black Weight: @ 10 months 342 kg Price \$4,000 (Ex GST)

Super low birthweight. Cadfor Midnight M252 was a tiny calf by a low birthweight bull out of a heifer. If you want to avoid any risk of calving problems this one will suit you. However, it may be prudent to sell the offspring because, being small, they may have calving problems themselves.

CADFOR MELANOCYTE M255 (BF)

Sire: BANKSIA RIDGE HARRY H1 (BF) Dam: CADFOR ESTER J254 (PB)

Colour: Black Weight: @ 10 months 355 kg Price \$6,000 (Ex GST)

Here is young bull that should create interest. Cadfor Melanocyte M255 is probably the best all round bull of this drop. He ranks in the top 1% of the Murray Grey breed for eye muscle and top 5% for carcass weight. Look at his other carcass EBVs and raw scans – well above average for rib and rump fat, marbling and yield. High growth, calving ease, perfect structure and dead quiet. Top 1% for his financial indices. A fantastic prospect.

CADFOR MESSAGE M257 (PB)

Sire: WALLAWONG SHEFFIELD (PB) Dam: WALLAWONG ESTER 5TH (PB)

Colour: Silver Weight: @ 10 months 323 kg Price \$3,500 (Ex GST)

Message M257 has Wallawong bloodlines by Sheffield who was our heifer bull for a couple of years without having any calving problems, despite above average birthweights. The shape of his calves was excellent - they came out like sausages. Like all the calves born in our record wet spring in 2016, M257 did not grow well to weaning. He has picked up now and would be pleased to be running with someone's heifers. An easy going bull.

CADFOR MILESTONE M261 (BF)

Sire: BANKSIA RIDGE HARRY H1 (BF) Dam: CADFOR BLUEBELL G215 (BF)

Colour: Black Weight: @ 10 months 355 kg Price \$6,000 (Ex GST)

Cadfor Milestone M261 is another Harry son that is a curve bender (low birthweight with above average growth). He will produce calves that are born easily and grow quickly. Super carcass attributes with top 1% eye muscle and the best marbling of the drop, plus rib and rump fats above average. Here is a bull that will get you the MSA premiums that everyone wants. Out of one of our best producers he will be a real herd improver. Dead quiet like the Harry offspring are.
